**Fire Prevention Week is  
October 3-9, 2021**

**See Fire Safety Tips at the end  
of the newsletter**

## Public Works

### **Meadowlake Transmission line**

Over 29,000 feet of new mainline has been installed on the Meadow lake transmission line project. Project on schedule to finish in November/December.

This project will replace 32,435 feet (6.14 miles) of water transmission pipeline.

Trenchline Excavation is doing the project. The City received a grant for \$7,150,000 for this project which was to cover all

aspects of the work including engineering, permitting, construction and change orders.

- The concrete reservoir is awaiting the delivery of its epoxy coating
- We repaired a few water leaks on Panther Creek and Meadowlake roads, as well as one sewer lateral repair on Harrison
- The chlorine chemical, sodium bisulfate tanks have been replaced at the Lagoons
  - The pool also had the chlorine chemical tank replaced

- The sidewalk project on Monroe Street is about 30% completed.
- The historical tree sign has been repaired and reinstalled
- The electronic speed signs have been sent to the manufacturer for repairs.

Front Row: Cecelia Petraitis, Elizabeth King, Tessa Paxton, Ellie Mitchell Back Row: Richard Aki, Kaylee Williams, Dakota King, Ariana Keller, Charlie Vertner, Alexa Aki

Congratulations to YC JV Volleyball! They were undefeated in their tournament in Corbett on 9/25. These young ladies played 11 tough sets and only dropped one, but didn't let that one dropped set stop them from bringing home the title of tournament champs. Richard and Alexa have been coaching at the JV level for five seasons and this was their first opportunity to coach at a JV tournament. They are beyond proud of their team! If any of you or your children see any of the JV ladies, please be sure to give them a hoorah for their big win! GOOOOOO TIGERS!!!

# Police

## Domestic Violence Arrest

On September 29, 2021, at about 10:18 p.m., Senior Officer Jake Blair responded to a domestic violence call on West Main St. Upon completing the investigation a 31-year-old male was arrested for Assault IV (Domestic). The victim sustained only minor injuries.

The male, a Carlton resident, was transported the Yamhill County Correctional Facility and lodged on the aforementioned charge.

**PD Activity for September 15, 2021 thru September 30, 2021 (Not all call stats were available at the time of data collection)**

Total CAD calls to Date for 2021 – 1893

Total CAD calls for September 2021 - 270

Total Traffic Stops to Date for 2021 – 241

Total Traffic Stops for September 2021 - 61

## Fall Weather Driving Safety Tips

Each year, the transition from summer to autumn brings the much-anticipated return of **colorful foliage**, **sweater weather**, football season and all things pumpkin. However, the beginning of fall also comes with potential driving risks, including slippery roads, decreased daylight, fog and sun glare. Autumn weather can be unpredictable and conditions can change drastically within a matter of minutes.

Prepare yourself and your vehicle for the changing seasons with the following tips to help you drive safely in the fall.

### How to Drive Safely in Darkness

As the days get shorter, you will likely be driving in the dark a lot more.

- Be sure to keep your headlights clean and in proper working order; dim or misaligned headlights can decrease your visibility.
- Always watch for pedestrians walking, jogging or biking through the streets; they may be difficult to see at night if they are wearing dark clothing.

- Be mindful of children walking to and from bus stops in the morning and afternoon.
- Fall is also an active breeding time for deer, so travel slowly if you live in a deer-laden area. If you see a deer cross the roadway, expect others to follow, as they often travel in groups.

### **Cold Weather**

- Fall weather can change rapidly from warm to cold, causing roads to ice over overnight. Drive slowly and brake gently when driving across overpasses and bridges, as these surfaces tend to frost over before others. Be aware of spots where **black ice** forms on the roadway and drive carefully through these areas.
- Check your tire pressure daily. Extreme changes in temperature will cause your tires to expand and contract, which may lead to a loss of tire pressure. Before starting your vehicle, clear away any frost on your windows and **check that your tires** are properly inflated and have plenty of tread.

### **Driving in Fog**

With cold autumn mornings often comes fog.

- When driving in foggy weather, set your headlights to low instead of high. High-beam headlights bounce off of fog and reflect back at you, further impairing your ability to see the road. Low beams, however, aim down toward the roadway and improve your visibility.
- Slow down and leave plenty of space between you and the car in front of you so that you have ample time to stop if necessary.

### Glare

Autumn's sunrises and sunsets can cause a large amount of glare, making it difficult to see other vehicles, pedestrians, traffic lights or the roadway.

- To combat glare, clean your windshield inside and out to remove any dust particles, streaks or smudges. These can become magnified when illuminated by sunlight and impact your visibility.
- Avoid using washing and waxing products that increase your car's shine. These products magnify the sun's glare on your car, which may cause the light to reflect into your eyes and blind you for a few seconds.
- Keep a **pair of sunglasses** in your vehicle at all times to protect your eyes from the sun's rays. If you frequently drive at night, consider purchasing lenses with anti-reflective coating in order to reduce glare from streetlights and headlights.

## ADVICE ON HOW TO DRIVE SAFELY IN THE FALL

### NIGHT

- Keep headlights clean and in proper working order.
- Drive slowly if you live in an area with deer.
- If you see a deer cross the road, expect others to follow.

### COLD WEATHER

- Drive slowly and break gently on bridges – they freeze more quickly than other parts of the road.
- Extreme changes in temperature can cause tires to expand and contract. Check tire pressure daily.
- Clear any frost on windows.

### FOG

- Set headlights to low beam instead of high.
- Slow down and leave plenty of space between you and the car in front of you.

### RAIN

- Remove leaves from windshield.
- Replace windshield wiper blades if they show any signs of wear.
- Drive slowly.
- If you start to hydroplane, steer straight and gently release the gas pedal until you feel the tires touch the road again.

### LEAVES

- Never park on a pile of leaves. This may cause a fire.
- Never drive over a pile of leaves; small children often play in leaf piles.

For more driver safety tips visit [AAA.com/Safety](http://AAA.com/Safety)

## **Wet Conditions**

Fall is notorious for wet weather. Wet leaves pose a serious risk to motorists since driving on them is like driving on ice.

- Before starting your car, remove any leaves from your windshield to prevent them from getting stuck under your wiper blades. Also, be sure to replace windshield wiper blades if they show any signs of wear. Neglecting your wipers can limit your vision during poor weather conditions and leave you in a dangerous situation.
- When driving during heavy rain, slow down, especially around turns. Wet conditions increase the time it takes your vehicle to come to a complete stop, so keep a good distance between you and the vehicle in front of you.
- Avoid sudden movements with the steering wheel or slamming on the brake pedal, as these actions may cause your car to hydroplane. If you feel that you are losing control of your vehicle, steer straight and gently release the gas pedal until you feel the tires make contact with the road surface again.

## **Other ways to drive safely in the fall**

- Never park your vehicle over a pile of leaves. Doing so may cause a fire to start from your vehicle's exhaust system or catalytic converter.
- Never drive over a pile of leaves; small children often play in leaf piles.
- Changing temperatures and weather conditions create potholes, and leaves on the roadway may make it difficult to see them. Always be sure to slow down and avoid driving over leaf-covered areas, if possible.
- Check that your **spare tire** is correctly inflated and has a proper tread. Having an under-inflated spare could leave you stranded if you happen to get a flat.

## September 2021: Code Enforcement Summary

Date	Code Violation Type	Status
8	Noise Nuisance	In Progress
9	Tree Safety Issue	In Progress
26	Non Compliance Structure	In Progress

## Finance-Administration-Planning

### **Launch of Financial Portal: [Financial Portal | City of Carlton Oregon](#)**

The financial portal provides a transparent view into how the City balances its revenues and expenditures. This is an interactive reporting tool that allows the public to explore City Financial data online in various, easy-to-use graphical formats selected by the user and download graphs and numbers.

To learn how to use the tool, review the How-to-Guide, or use the Help Menu within the tool for further explanation. Data is updated daily. We will continue to add more reports, so please come back as the portal grows.

**For Previous City Community Updates:**

**[City Community Updates | City of Carlton, Oregon](#)**

As of September 26th, approximately 62,259 people have received at least one dose of a COVID-19 vaccine, which represents approximately 66.6% of the county population age 12 and older.

**Upcoming Vaccination Opportunities:**

- 📍 Monday September 27th 4:00-6:30 pm Yamhill County Public Health- 412 NE Ford St.
- 📍 Thursday September 30th 12:00-7:00pm McMinnville Farmers Market
- 📍 Saturday October 2nd 9:00am -4:30pm at Yamhill County Public Health- 412 NE Ford St.

**Upcoming Testing Opportunities:**

- 📍 No mass testing events this week

# Learn the Sounds of Fire Safety™

Is there a beep or a chirp coming out of your smoke or carbon monoxide alarm? What does it all mean? Knowing the difference can save you, your home, and your family! Make sure everyone in the home understands the sounds of the smoke and carbon monoxide alarms and knows how to respond. Learn the sounds of your smoke and carbon monoxide alarms by checking the user guide or search the brand and model online.

## What is your alarm telling you?

### SMOKE ALARMS

- A continued set of three loud beeps—beep, beep, beep—means smoke or fire. Get out, call **9-1-1**, and stay out.
- A single “chirp” every 30 or 60 seconds means the battery is low and must be changed.
- All smoke alarms must be replaced after 10 years.
- Chirping that continues after the battery has been replaced means the alarm is at the end of its life and the unit must be replaced.

### CARBON MONOXIDE (CO) ALARMS

- A continuous set of four loud beeps—beep, beep, beep, beep—means carbon monoxide is present in your home. Go outside, call **9-1-1** and stay out.
- A single chirp every 30 or 60 seconds means the battery is low and must be replaced.
- CO alarms also have “end of life” sounds that vary by manufacturer. This means it’s time to get a new CO alarm.
- Chirping that continues after the battery has been replaced means the alarm is at the end of its life and the unit must be replaced.

Make sure your smoke and CO alarms meet the needs of everyone in your home, including those with sensory or physical disabilities.

#### Some tips:

- ✓ Install a bedside alert device that responds to the sound of the smoke and CO alarms. Use of a low frequency alarm can also wake a sleeping person with mild to severe hearing loss.
- ✓ Sleep with your mobility device, glasses, and phone close to your bed.
- ✓ Keep pathways like hallways lit with night lights and free from clutter to make sure everyone can get out safely.

## Hear a Beep, Get On Your Feet!

Get out and stay out! Call 9-1-1 from outside.

## Hear a Chirp, Make a Change!

A chirping alarm needs attention. Replace the batteries or the entire unit if it's over 10 years old.

If you don't remember how old the unit is, replace it!
