

City Community Updates

Opportunities to Get Involved

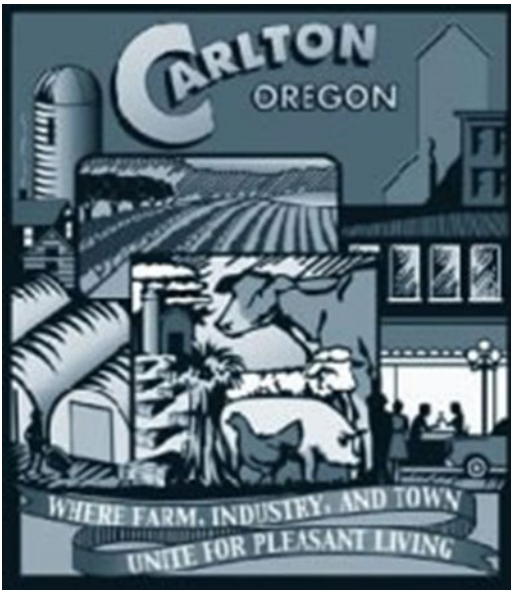

The HOLST project team will host an open house for the display of the pending Carlton Civic Building project on January 22, 2022 from 12:00PM – 3:00PM at the Carlton City Hall 191 E. Main Street.

This is a drop in event to encourage staggered attendance for COVID safety. All COVID safety protocols will be in place including the requirement to wear a mask. You are encouraged to drop in at any time during those hours.

If you are unable to make the open house an opportunity for online viewing will be made available after the open house.

Help to plan the future of Carlton!

The City of Carlton invites you and your neighbors to be part of a city-wide effort to create a Community Vision and Comprehensive Plan update. As the community's blueprint for the future, the Comprehensive Plan will guide decisions on growth, development, and public investment over the next 20 years. The Comprehensive Plan provides a unified vision, goals, and policies for good governance and future decision making.

We need you! We encourage anyone who is interested to apply for a position on the Project Advisory Committee (PAC). The PAC will meet four times in 2022 to advise development of the Vision and Plan. For more information, contact Aimee Amerson at aamerson@ci.carlton.or.us, 503-852-7575. Information about the project and process can be found at the following link. This page will be updated as the project progresses.

We need your Input!

Oregon is required to establish Total Maximum Daily Loads (TMDL) for streams segments which do not meet water quality standards. The TMDL identifies the level of pollutants that a water body can absorb and still meet water quality standards.

The City of Carlton has both the Yamhill river and Hawn Creek near and through it. It is important to keep these waterways clean for fish and wildlife use. The City will soon begin developing our own required Water Quality Management plan and we need your

input. If you could spare a few moments of time and share your thoughts, we would appreciate your time and responses.

Survey can be found here:

<https://www.ci.carlton.or.us/publicworks/webform/deq-required-stormwater-updates>

Project information can be found here:

<https://www.ci.carlton.or.us/administration/project/mercury-total-maximum-daily-load-tmdl-implementation-plan>

See what's being built in 2022!

Visit our [online open house](#) to learn more about construction happening in your area.

ODOT invites the Carlton community to learn more about upcoming projects and share their thoughts through our online open house that is now live through February 1, link: [Region 2: Construction Projects in 2022 \(odotopenhouse.org\)](https://odotopenhouse.org)

ADA curb ramps Construction in 2022

ODOT is installing ADA compliant curb ramps on the corners of several intersections in Carlton. ODOT plans to construct one corner of an intersection at a time, with up to five intersections under construction at once. When construction starts, expect ODOT crews working during the day and at night as needed.

During construction, the project webpage or [Tripcheck.com](https://tripcheck.com) will have the most up to date information about impacts. ODOT is working with the City to help coordinate and distribute information and project updates.

For questions about the ADA curb ramps, contact the project manager:

Brennan Burbank brennan.burbank@odot.oregon.gov 971-701-3342

OR 47 realignment design is underway

You may see activity in Carlton as ODOT restarts the design of the OR 47 realignment project. This project includes installing ADA curb ramps, bike lanes and rerouting traffic to a new alignment of OR 47 from W Main Street onto Monroe Street.

ODOT will be engaging the community throughout the design process, stay tuned for information on how you can get involved.

For questions about the OR 47 realignment work, contact the project manager:

Paul Welch paul.welch@odot.oregon.gov 503-302-8926

Public Works

Water

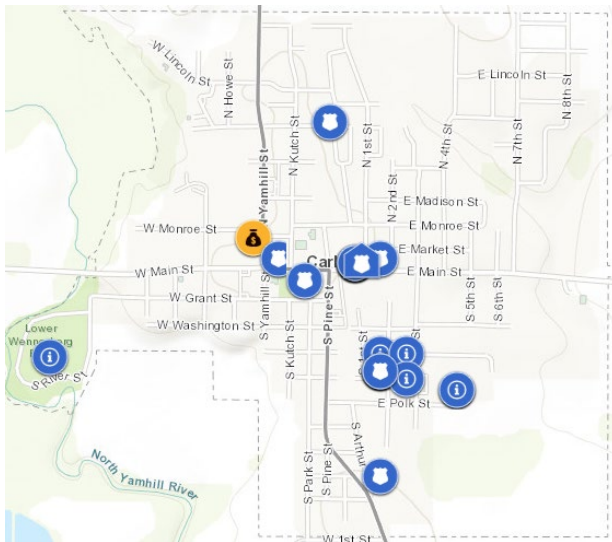

- ◆ One water leak repair.
- ◆ 1st walk thru inspection on Meadow lake transmission line completed this Friday.
- ◆ Team members found water coming from a basement of a house not occupied turned out a pipe broke on the 1st floor, flooded the house. ***The owner was contacted but as a reminder to residents during cold weather to either leave a faucet dripping or adjust your heat to keep pipes from freezing.***

Sewer

- ◆ 1 sewer repair

Streets

- ◆ If you see potholes, please call:
 - City Street: Public Works 503-852-3104
 - State Highway 47: ODOT McMinnville Office 503-472-1462

Police
