ADA curb ramps Construction coming soon

Phase 1 of the ADA construction project is set to kick off in a few weeks. As we get closer, we will let you know where and when to expect work. ODOT is installing ADA compliant curb ramps on the corners of several intersections in Carlton. ODOT plans to construct one corner of an intersection at a time, with up to five intersections under construction at once. When construction starts, expect ODOT crews working during the day and at night as needed. As with all construction projects there are unexpected occurrences. We appreciate your patience and understanding.

During construction, the project webpage or Tripcheck.com will have the most up to date information about impacts. ODOT is working with the City to help coordinate and distribute information and project updates.

For questions about the ADA curb ramps, contact the project manager:
