## Code Corner

Preventing unwanted whiskered visitors helps our community remain safe and orderly, let's review some ordinances as they pertain to clutter and rubbish and how we can keep our town looking beautiful!

Citizens and visitors are not to:

- Accumulate debris, rubbish, manure, decaying food or other refuse on private property or sidewalks. If, in the course of reasonable activities, these items are accumulated they are to be removed within a reasonable time.
- Keep old, used, or second-hand material such as bottles, metal, furniture, bicycles, motor vehicles or their parts, which are rendered practically useless for their original purpose and would be commonly classed as junk or secondhand goods on private property.
- Accumulate grass, weeds and other noxious vegetation, living or dead, of an inflammable nature on private property
- Pile materials or machinery and equipment that are accessible and dangerous to the general public on private property

**Remember to:** store any *necessary* materials so as to discourage rat-harborage (open racks elevated 18 inches above the ground, materials evenly stacked/placed).

The codes in their entirety can be accessed on the City's website at [https://library.municode.com/or/carlton/codes/code\\_of\\_ordinances](https://library.municode.com/or/carlton/codes/code_of_ordinances). Please don't hesitate to reach out to City Hall with any questions: 503-852-7575

## OREGON22

July 15-24, [WCH Oregon22](#) will be held in Eugene at Hayward Field, at the University of Oregon. Marathons, race walks and community runs will be held at Autzen Stadium. This is a world wide event, with participants expected to visit throughout the state while they are here. About 25,000 people a day are expected to attend.

While many are staying on campus or in Eugene, others will be traveling throughout the state.

Learn more about the events, including the schedule and ticketing information, from the [event website](#).

### How will travel around the state be impacted?

Most construction and maintenance projects that could have major impacts on traffic headed to or attending Oregon22 are planning to pause during the event. Construction in other parts of the state will continue as scheduled, as will any emergency road repair projects.

Projects that will continue construction are aware of the potential increase in traffic and have planned accordingly.

[TripCheck.com](#) will have the most up to date information on traffic impacts.
