**Carlton Police Department receives grant for DUII patrols from
Oregon Impact**

In November of 2018, Carlton Police Department received a DUII enforcement grant from Oregon Impact.

This grant provides funding for high visibility enforcement which will consist of extra time on the streets aggressively seeking out impaired drivers and is meant to deter people from driving after they've been drinking alcoholic beverages or using controlled substances, including marijuana.

Officer Blair urged citizens to make responsible decisions by driving sober; and if you are impaired, to use a designated driver or taxi service.

Carlton Police Department will deploy officers throughout the month of November 2018 on these high visibility patrols for the sole purpose of DUII enforcement.
